

Golf Australia communication regarding COVID-19 for Glenelg Golf Club

Dear South Australian Golf Clubs and Facilities,

As you are aware, COVID-19 or the Coronavirus as it is more commonly known has created global health concerns regarding the disease and its infection rates.

Golf Australia is writing to provide further assistance and guidance to our clubs and facilities on this important topic.

On Monday, Golf Australia received and communicated advice from SAPOL that said clubs who typically serve food and non-alcoholic beverage for consumption on course may continue to do so.

Yesterday we received information from a Club that they had received conflicting advice to what we had received. We sought to confirm those details and have been advised by SAPOL that clause 5 (5) (c) does apply to Golf Clubs and the exemption to operate only applies if that condition can be met. The directive can be found by clicking "More info".

[More Info](#)

In summary, SAPOL have advised that clubs cannot supply and food or beverage for consumption on the premises, including the golf course.
